Antisocial personality disorder (ASPD) has a distinct cognitive profile according to cognitive theory of personality disorders. Antisocial individuals' view of the world is personal rather than interpersonal. They cannot accept another's point of view over their own. As such, they cannot take on the role of another. Their actions are not based on choices in a social sense because of this ...

Bloom's Taxonomy of Learning Domains. Bloom's Taxonomy was created in 1956 under the leadership of educational psychologist Dr Benjamin Bloom in order to promote higher forms of thinking in education, such as analyzing and evaluating concepts, processes, procedures, and principles, rather than just remembering facts (rote learning). It is most often used when designing educational, training ...
