having trouble with controls for bucket truck ...

Another reason to have a manual for your bucket truck is the maintenance schedul e it offers. It details what maintenance is recommended and how often. As an example, most manuals recommend changing the hydraulic oil and breather every 3 years. And after 5 years of operation, the lift cables and leveling cables should be replaced.

Manuals - buckettruckparts.Utility Equipment Parts, LLC

Terex® Hi-Ranger Overcenter bucket trucks are typically selected for their upper boom articulation to support electric utility work practices on both sides of the pole. Operators get the benefit of using it just like a Non-Overcenter aerial device with the added benefit of upper boom articulation beyond center.
