### INTRODUCTION: GLOBALIZATION AND INTERNATIONAL TRADE

The tremendous growth of international trade over the past several decades has been both a primary cause and effect of globalization. The volume of world trade increased twenty-seven fold from \$296 billion in 1950 to \$8 trillion in 2005 (WTO, 2007). In recent years world trade has declined in volume and was down in 2012 and is expected to remain sluggish through 2013. This is a result of the struggling economies of Europe and doubt over the Euro (WTO, 2013).

### Trade and Globalization | Globalization101

The tremendous growth of international trade over the past several decades has been both a primary cause and effect of globalization. The volume of world trade increased twenty-seven-fold from \$296 billion in 1950 to \$8 trillion in 2005. Although international trade experienced a contraction of 12.2 percent in 2009, the steepest decline since World War II, trade is again on the upswing.

Introduction Globalization And International Trade

Basically, it means that since globalization implies a compression of national boundaries, which were brought about by the increase of trade at the global level, the importance of both the activity of international legal institutions and treats, like the World Trade Organization, and the dialogue between political leaders of different nations has risen significantly.

An Introduction to Globalization Essay - 2500 Words | Bartleby

Introduction When people think about globalization, they often first think of the increasing volume of trade in goods and services. Trade flows are indeed one of the most visible aspects of globalization. But many analysts argue that international investment is a much more powerful force in propelling the world toward closer economic integration.
