A Survey of Attitudes Toward the Latin American Judicial Systems

The judicial sector in Latin America is ill prepared to foster private sector development within a market system.⁵ The results of business surveys throughout Latin America indicate that the judicial system is considered to be among the most significant constraints to private sector development.⁶ For example, a World Bank survey

A quantitative assessment of the efficiency of the ...

There is a widespread belief throughout Latin America that the judicial sector is not in a position to foster private sector development within a market system. The courts are overburdened and unable to dispose of cases in a timely fashion. As a result, frustrated litigants lose faith in the public justice system's ability to resolve their disputes.

A quantitative assessment of the efficiency of the ...
