The Polaroid 600 OneStep series uses Polaroid's 600 Platinum film. This type of film cartridge contains its own battery. If your Polaroid 600 OneStep will not power on, the chances are good that the film cartridge's battery is dead. Unfortunately, this renders the film cartridge useless; it requires replacement.

Traditional Polaroid films like SX-70 and 600 include a flat battery within the film pack. This is evident when turning the film pack around by two cutouts in the plastic cover with a metal surface visible. A good battery should show over 6 VDC when checking with a digital voltmeter. Newer film types do not include batteries any more.
