Online Library Problems With Honda Gx390 Engines

Wondered if anyone has ever come across this problem before. Just acquired a Honda GX390 13HP engine, bought it blind so expected to find something wrong. On pulling the starter rope the engine reaches the compression stroke but won't turn over the compression stroke. If you take the spark plug out the engine will then turn over the compression stroke.

So here's my problem. I own a dewalt pressure washer with a 13 hp Honda GX 390 engine. It was all serviced and worked well last summer. Kept in my garage, seafoam stabilizer in it. It starts but shuts off right away or stays on for 30 or so seconds and then shuts down.. i check the oil and it pours out when the cap is removed.
