Amazon.co.uk:Customer reviews: Programming the Human ...

The term human biocomputer, coined by John C. Lilly, refers to the "hardware" of the human anatomy. This would include the brain, internal organs, and other human organ systems such as cardiovascular, digestive, endocrine, immune, integumentary, lymphatic, muscular, nervous, reproductive, respiratory, skeletal, and urinary systems. The biocomputer has stored program properties, and self-metaprogramming properties, with limits determinable and to be determined.

Human biocomputer - Wikipedia

He describes his tank work (and lots more) in The Dyadic Cyclone, The Center of the Cyclone, and in Programming and Metaprogramming in the Human Biocomputer (1967) and other books and papers. ## Programming and Metaprogramming in the Human Biocomputer ...

All human beings, all persons who reach adulthood in the world today are programmed biocomputers. No one of us can escape our own nature as programmable entities. Literally, each of us may be our programs, nothing more, nothing less. Despite the great varieties of programs available, most of us have a limited set of programs. Some of these are builtin.

## JOHN C. LILLY, M. D. - DOP

These events are described in his books Programming and Metaprogramming in the Human Biocomputer, published in 1968, and The Center of the Cyclone, published in 1972. Following advice from Ram Dass , Lilly studied Patanjali 's system of yoga (finding I. K. Taimni 's Science of Yoga , a modernized interpretation of the Sanskrit text, most suited to his goals).
