Now that the students have analyzed closely the question or writing prompt, identified the similarities and differences in content, structure, and media used across the texts, it is time for them to evaluate the texts and offer their opinion on their overall merit or effectiveness.

Teaching Compare and Contrast Literacy Ideas
Introduction. Tell students that today they are going to compare and contrast texts that are written about the same topic. Ask students to volunteer definitions for the terms compare (note the similarity between) and contrast (note the difference between). Support students as needed to review these terms. Explain that even if two texts are written about the same topic, they can have different information depending on the author's perspective or the source of the information.

Compare and Contrast Texts on the Same Topic | Lesson Plan ...
A text slider question is a rating scale questiontype that uses an interactive slider in answer to select the most appropriate option. The options scale is well-defined and on the same continuum. Rating scales are used to measure the direction and intensity of attitudes. You can also use a text slider where either end of the option has an anchor.

Histograms. When displaying grouped data, especially continuous data, a histogram is often the best way to do it specifically in cases where not all the groups/classes are the same width. Histograms are like bar charts with 2 key differences:. There are no gaps between the bars; It's the area (as opposed to the height) of each bar that tells you the frequency of that class.
