ZPL II Programming Guide - ServoPack

Zebra Programming Language is a page description language from Zebra Technologies, used primarily for labeling applications. The original language was superseded by ZPL II, but it is not fully compatible with the older version. Meanwhile, ZPL II is emulated by many label printers of various producers. Later, the Zebra BASIC Interpreter was integrated into printer software, which is seen as an advancement to ZPL II by the producer and is ANSI BASIC oriented. Primarily, it is intended to avoid a r
